

CLAIMS

What is claimed is:

1. A virtual DJ comprising:

a recording media selected for broadcast at a predetermined event;

a selection of event specific material fixed on the recording media; and

DJ performance materials complementary arranged and fixed on the recording media

5 with the event specific material.

2. The virtual DJ of claim 1 wherein the recording media is an audio media.

3. The virtual DJ of claim 1 wherein the recording media is audio and visual.

4. The virtual DJ of claim 1 wherein the recording media has a predetermined life span.

5. The virtual DJ of claim 1 wherein the recording media is a compact disc.

6. The virtual DJ of claim 1 wherein the recording media is a compact disc read only memory.

7. The virtual DJ of claim 3 wherein the recording media includes pictures for display at the predetermined event.

8. The virtual DJ of claim 3 wherein the recording media includes a slide show for display at the predetermined event.

9. The virtual DJ of claim 1 wherein the recording media includes songs from a play list.

10. The virtual DJ of claim 1 wherein the event specific material includes guest information.

11. The virtual DJ of claim 1 wherein the recording media includes software to enable a display of visual effects synchronized with audio portions of the DJ performance materials.

12. A method for performing recorded material at a predetermined event, the method comprising:

gathering event specific material associated with the predetermined event;
producing a recorded performance by complementarily arranging a DJ's performance material with the gathered material and event specific material; and
playing the recorded performance at the predetermined event.

13. The method of claim 12 wherein the gathering of event specific material is in response to a play list and guest information.

14. The method of claim 13 wherein the guest information includes stories and idiosyncrasies.

15. The method of claim 12 wherein the complementary arrangement of the recorded performance is based on in part an event itinerary.

16. The method of claim 12 further comprising an event client providing pertinent information regarding the predetermined event.

17. The method of claim 12 further comprising providing an event client the recorded performance in a recording media.

18. The method of claim 17 wherein the recording media has a predetermined life span.

19. The method of claim 17 further comprising accepting a security deposit from the event client prior to the step of providing.

20. A virtual DJ system comprising:
means for gathering event specific material associated with the predetermined event;
means for producing a recorded performance by complementarily arranging DJ performance material with the gathered material and event specific material; and
means for playing the recorded performance at the predetermined event.

21. The virtual DJ system of claim 20 wherein said gathering means includes an Internet web site having an input configured to receive event specific material provided by an event client.

22. The virtual DJ system of claim 20 wherein the playing means includes a computer.

23. A recording media for broadcast at a predetermined event, material fixed on the media comprises:

a selection of event specific material for the predetermined event; and
DJ performance materials complementarily arranged with the event specific material.

24. The recordable media of claim 23 wherein the fixed material further comprising a time bomb to prevent use of the recording media after the predetermined event.
